## WHY US

As the survivor of a head-on crash that left him paralyzed, Ron is someone who needs daily care himself. It was this tragedy that led him to design a far more effective way for families to choose, hire, and employ experienced and highly recommended caregivers. With LeanOnWe, you'll benefit from a thoughtful and committed team that personally knows what a difference customized home care can provide.

**Our founder, Ron Gold, is intimately acquainted with the critical role that caregivers provide.**
